The Steadi-Plank™ system

PS-4 STEADI-PLANK™ floating

C.A.R.S. System

Wheelchair Accessible Ramp

The honeycomb construction of the Steadi-Plank™ allows it to support over 1000 lbs.

Cost effective features:

- State of the art "Space Age" lightweight aluminum honeycomb core construction.
- Easy to attach and detach from any size and type of vessel.
- Durable 6000 series marine grade aluminum alloy and stainless steel "adaptable" mounting systems and hardware.
- Adaptable to various lengths and widths with our "Add-A-Length™" system.
- Flexible mounting options using our "Add-A-Feature™" mounting system.
- *Will support over 1,000 lb.-distributed weights.
- Optional, removable full-length handrails.
- Replaceable non-marking end glide plate and side glide pads.
- Optional step down STEADI-PLANK™ Mounting Height/Angle adjuster.
- Replaceable Non-Skid walking surface.
- Eye rings to secure to dock or vessel if desired.
- STEADI-PLANK™ Storage Systems.
- Will float if dropped into the water.
- 1 Year limited warranty.
