### Flat Mount, Side Mount, & Telescoping Boarding Ramps

Our manually deployed Passerelle style of boat boarding ramps are designed for the boater that doesn't need the lifting capability of an hydraulic passerelle but still wants the ease and convenience of the telescoping and rotational features of an hydraulic system but at a more cost effective price. We have two basic styles of our passerelle system. A flat surface mount and a side boarding mount.

Our flat base manually deployed PASSERELLE style-boarding ramp has a flat base for mounting on a swim/dive platform or vessel deck. This mount can be used with our fixed length ramps and the new telescoping ramps. It can swivel 160 degrees horizontally side to side in and pivot up and down with the tide. The telescoping ramp may be extended from 7' to 11' with its telescoping sections. (A 10' to 17' telescoping ramp is also available).

PSA-SM side mount with PGM saddle mount

PSA-SM side mount with PGM saddle mount

Our PAS-SM side mount using our PGM saddle mount and our PSE-64 10' Steadi-Plank™ boarding ramp with our HRK-10 handrail

PSA-SM/PSE-64/HRK-10 system facing aft on a 58' vessel

Our vessel side-boarding mount can be used with our fixed length ramps and the new telescoping ramps. This mount will allow you to support the telescoping or fixed length ramp from either side of your vessel or the transom and position the ramp forward, aft, side-to-

side or straight out. (160 degrees swivel). We have two basic telescoping STEADI-PLANK™ ramps that will extend from 7' to 11' or from 10' to 17'. Both have two sections.

December 1, 2008 Price

TEL-711	7' to 11' Telescoping Steadi-Plank™ ramp.	\$ 6,995.00
