

PS-4 STEADI-PLANK™ floating

C.A.R.S. System

Wheelchair Accessible Ramp

**The honeycomb core construction of the STEADI-PLANK™ will support over 1,000 lb. Cost effective features**

**"AYE" Matey.... It's the STEADI-PLANK™ for you!**

- State of the art "Space Age" lightweight aluminum honeycomb core construction.
- Easy to attach and detach from any size and type of vessel.
- Durable 6000 series marine grade aluminum alloy ramp.
- Stainless steel "adaptable" mounting systems and hardware.
- Adaptable to various lengths with our "Add-A-Length™" system.
- Flexible mounting options using our "Add-A-Feature™" mounting system.
- Will support over 1,000 lb. distributed weight.
- Removable full-length handrails.
- Replaceable non-marking end glide plate and side glide pads.
- Replaceable Non-Skid walking surface.
- Eye rings to secure to dock or vessel if desired.
- Will float if dropped into the water.
- Standard ramp weighs only 4 lbs. per sq. ft. (8 lbs. per linear ft.)
- 1 Year limited warranty.

Our ramps are not designed to be cantilevered. They must be supported at both ends either with one of our mounting systems or be resting on a surface.

**Unsure about your first step... don't be... Use the STEADI-PLANK™ Boat Boarding Ramp System®!**
