The STEADI - PLANK™ System

932 Chipaway Dr. Apollo Beach, FL 33572 Ph# (813) 645-6666 Fax# (813) 645-3874

Passerelle Style Side swivel Platform, & Angle platform

Our manually deployed Passerelle style of boat boarding ramps are designed for the boater that doesn't need the lifting capability of an hydraulic passerelle but still wants the ease and convenience of the rotational features of an hydraulic system but at a more cost effective price. We have two basic styles of our passerelle system. A fixed angle mount and a swivel platform boarding mount.
